

Veterinary Anatomy of Domestic Mammals

Textbook and Colour Atlas

Edited by:**Horst Erich König**

Veterinärmedizinische Universität Wien, Austria.

Hans-Georg Liebich

Ludwig-Maximilians-Universität, München, Germany.

Foreword by

Gh. M. Constantinescu, University of Missouri-Columbia, USA.

With contributions from:

H. Bragulla, K.-D Budras, C. Cervený, H. E. König, H-G Liebich, J. Maierl, Chr. Mulling, S. Reese, J. Ruberte, J. Sautet.

Description:

In this magisterial work, the authors have created a unique blend of text, colour photographs, imaging and diagrams describing the gross systematic and topographical anatomy of domestic mammals.

Throughout the book the authors focus on anatomical relationships to clinical conditions and where appropriate, to microscopic anatomy, histology, embryology and physiology.

Greatest emphasis is given to dog and cat and horse, with relevant information on ox/cow, pig, sheep, goat and rabbit.

The book combines meticulous science and superb illustrations, and will be a life-long source of reference for veterinary students, practitioners, educators and researchers.

Contents:

General introduction, 1. Axial skeleton (skeleton axiale), 2. Fasciae and muscles of the head and trunk, 3. Forelimb or thoracic limb (membra thoracica), 4. Hindlimb or pelvic limb (membra pelvina), 5. Statics and dynamics, 6. Body cavities, 7. Digestive system (apparatus digestorius), 8. Respiratory system (apparatus respiratorius), 9. Urinary system (organa urinaria), 10. Male genital organs (organa genitalia masculina), 11. Female genital organs (organa genitalia feminina), 12. Organs of the cardiovascular system (systema cardiovasculare), 13. Immune system and lymphatic organs (organa lymphopoetica), 14. Nervous system (systema nervosum), 15. Endocrine glands (glandulae endocrinae), 16. Eye (organum visus), 17. Vestibulocochlear organ (organum vestibulocochleare), 18. Common integument (integumentum commune), References, Glossary of Terms, Index.

681 pp

310 x 230 mm page size

1022 colour and b/w illustrations

53 tables

Hardcover

ISBN: 3-7945-2101-3

Approximate price: £195.00

Readership:

Students, practitioners, educators and researchers in veterinary medicine and comparative anatomy.

Key Features:

- Single volume— combines meticulous science and superb illustrations.
- Includes all domestic mammals, special focus on dog, cat and horse.
- Clinically relevant throughout.
- Over 1,000 colour photos, imaging, diagrams and tables.
